WOODLAND TRAIL

The Department of Finance is working to promote and enhance the Stormont Estate as a visitor and tourist attraction and has created a series of adventure trails to showcase the rich biodiversity of the woodlands and to give visitors a brief insight into the history of the Estate. Each trail can be navigated using a trail map. There are four trails, a woodland trail, an environment trail, a history trail and a bug safari trail suitable for all age groups. **Adventure awaits, go find it.**

Can you help us find the answers to the clues to the Woodland Trail?

We have developed a trail for you to explore using your navigational skills and powers of observation. We need you and your friends to locate all 9 clues, answer the questions and solve the final answer.

Using the map, make your way around each of the locations. Each location can be found easily and has a question linked to it.

Answer the question on your sheet. Each shaded letter will be used to make up your final answer. Once you have solved all the clues, write the letters into the final answer grid.

Remember that you are responsible for the safety of yourself and others in the group while on the trail. Do not allow your children to go ahead and separate from the group. Don't forget to respect the privacy and property of others. Before you begin, agree on an emergency rendezvous point should someone become separated.

WOODLAND TRAIL

1

What do we call the tangled threads under a toadstool?

2

How many inches long was the largest recorded land snail?

3

What is a young deer called?

4

What does sunlight turn trolls into?
