⁽¹⁾ Mass in Running Order means the mass of the unladen vehicle with bodywork, and with coupling device in the case of a towing vehicles, (including coolant, oils, 90% fuel, 100% other liquids except used waters, tools, spare wheel and driver (75kg), and, for buses and coaches, the mass of the crew member (75kg) if there is a crew seat in the vehicle.

⁽²⁾ Laden Mass means the mass in running order plus passenger weight of Classes I and A, 68kg, Classes II & III and B, 71kg, placed on each seat (top deck only of a double deck vehicle). A weight of 75kg representing a driver or seated crew member will be placed on the associated seats. If the vehicle is intended for standees or with a crew member who is not seated, the centre of gravity of the loads for passengers of 75kg, representing them, shall be uniformly distributed over the standee or crew area respectively, at a height of 875mm. Plus for luggage carried on a roof rack any weight declared by the manufacturer, must exert a specific load of not less than 75kg/m² over the whole surface area of the roof equipped for the carriage of baggage. For wheelchair users the mass is 250kg at a height of 500mm.
